

service or the knowledge subject and then after each update provided locally by the Success Analysis component.

Claim 16 (~~Original~~Currently amended). Knowledge-driven architecture control system of claim 15, wherein information on new elements is propagated after the first successful operation that included the new element; and thereafter after each local update of such information by the Success Analysis component.

REMARKS

This submission is to address the points raised by the examiner in the Office Action of 12/30/09 and following the guidance to overcome the non-response amendment notice provided by the examiner in the interview at 03/22/2010:

1) Underline for any added limitations, 2) provide a complete listing of claims; further instructed to amend the claims in accordance with the specifications as any limitation not supported by the specification would be considered as new matter, and provide language in the claims that clearly sets forth the claimed invention.

No new matter was introduced with amended claims.

Favorable reconsideration is respectfully requested.

Respectfully submitted,

Date: 03/26/2010

Yefim Zhuk, Applicant
